This Cromer willow coffin is a natural colour handcrafted from the sustainable willow using traditional methods.

The willow is woven onto a self-supporting frame, which gives the coffins exceptional strength whilst at the same time remaining incredibly light. Manufactured in the EU using cottage industry methods, in which people work in their own homes to create these products.

Willow coffins can look even lovelier with the addition of flowers. Because they are woven it is easy to attach flowers to a willow coffin. As well as the flower arrangement on the top of the coffin often a garland can be attached around the coffin and individual posies too. More information on how to decorate a willow coffin.

Our willow coffins are FFMA or CCSA approved for quality. All our eco-coffins are suitable for traditional or green burial or green cremation.

Please note:

We do not provide the coffin with flowers – these are for illustrative purposes only. The coffin that you receive may not match the colour exactly of the coffin displayed on screen. Willow is a natural material and the colour tone may vary harvest to harvest. Also your computer monitor may have different colour settings to ours.
All our coffins come with a bio-degradable waterproof lining and a second unbleached cosmetic cotton lining
